

DELTA ENGINE 2026: GLOBAL AI & SWARMS SUMMIT

Session: Advanced WebAssembly Runtimes & Edge Swarms

Presenter: Dr. Evelyn Wright | Principal Systems Researcher

Target Venue: Turing Hall | Facility Capacity: 250 Pax | Slot: 11:00 AM

Tags: #Wasm #Rust #EdgeSwarm #AI #DistributedSystems

ABSTRACT & TECHNICAL HIGHLIGHTS:

- 1. Sandboxed WebAssembly execution on low-latency edge routers.**
- 2. Zero-overhead peer-to-peer swarm consensus without central controllers.**
- 3. Autonomous self-healing fault tolerance under heavy network load stress.**
- 4. Real-time telemetry monitoring with automated IoT venue balancing.**
